IN•clued

INCLUSIVE HEALTH CARE – YOUTH & PROVIDERS EMPOWERED

Are you LGBTQ+ identified and 14-19 years old? If so, this study is for YOU!

The Center's Teen Wellness Providers are partnering with Planned Parenthood of the Great Northwest and the Hawaiian Islands to offer two exciting programs in our community! Each of these programs are 4 hours long and include FOOD, fun activities, FOOD, discussions on topics that matter to LGBTQ+ youth, and FOOD! Not to mention a pretty awesome swag bag...

High Key Program:

This group will participate in activities about human sexuality and identity specifically designed for LGBTQ+ youth. Activities could include a community scavenger hunt, poetry slam, discussion about all sorts of relationships, and appreciation of members of the group's unique strengths.

IN•clued:

IN•clued is an innovative new program designed specifically for LGBTQ+ young people with the goals of increasing LGBTQ+ youth's sexual health and confidence in accessing sexual healthcare. IN•clued peer educators teach about sexual safety, how and where you can access services, and how to talk to a medical provider about your sexual health needs.
